Profile

Computer Science graduate and software developer with practical experience building responsive web applications and contributing to frontend and backend development workflows. Proficient in React.js, JavaScript, TypeScript, HTML, CSS and Tailwind CSS, with additional experience using Node.js, REST APIs, AI integrations and Git-based collaboration. Experienced in developing user-focused interfaces, debugging applications and collaborating throughout the software development lifecycle. Interested in building scalable, maintainable software solutions and contributing to full-stack engineering projects.

Professional Experience

06/2026 – 10/2026

AI Backend Engineering Intern, *Flyrank*

Chicago, Illinois, United States

- Contributed to backend engineering workflows involving Node.js and JavaScript.
- Worked with API development and integration for AI-powered application workflows.
- Participated in AI agent development, LLM integrations and automation processes.
- Gained exposure to data pipeline workflows and backend application architecture.

04/2025 – 12/2025

Frontend Developer Intern, *Cephas ICT Hub*

Ogbomoso, Nigeria

Trained in web development, including front-end technologies such as HTML, CSS (Tailwind), and JavaScript (Reactjs)….

Coded frontend features for both mobile and desktop platforms using HTML, Tailwind CSS, and React.

Participated in debugging and version control using Git.

Collaborated in the software development cycle from prototyping to deployment.

Identified and resolved frontend issues while improving usability and responsiveness across devices.

Education

08/2022 – 08/2027

Bachelor Of Technology / Computer Science,

Ogbomoso, Nigeria

Ladoke Akintola University Of Technology

CGPA: 4.32 / 5.0

Typescript

Javascript

Version Control Systems: Git, Github

Continuous Improvement

Software development

Languages & Tools:
JavaScript, TypeScript, HTML, CSS

Frontend Development: React.js, JavaScript, TypeScript, HTML5, CSS3, Tailwind CSS

React.js experience

Teamwork and Collaboration

Tailwind css

Time Management

Core Competencies
Debugging, version control, collaboration, problem-solving, continuous learning

Backend Development: Node.js, Express.js, REST API Development and Integration

Organisations

10/2024 – 02/2025

Cephas ICT Hub, *A frontend Web Developer*
Developed a responsive, user-friendly website for Cephas ICT Hub, enhancing user engagement and accessibility through intuitive navigation, modern design principles, and optimized performance.

Ogbomoso, Nigeria

Certificates

- CertificateOfCompletion_Career Essentials in Software Development by Microsoft and LinkedIn
- CertificateOfCompletion_Career Essentials in Generative AI by Microsoft and LinkedIn

Interests

Sports — I have a strong passion for sports, staying active through various activities both in person and online. Sports help me stay fit while teaching valuable lessons in discipline, cooperation, and resilience., **Entertainment** — I have a keen interest in movies and music, enjoying different genres and staying updated with trends. This passion for entertainment fuels my creativity and often inspires my work and personal projects., **Reading** — I also enjoy reading to broaden my knowledge and perspective. Readers are Leaders.

Projects

MineScope, *Mineral Resource Information and Reporting System*
- Developed a React and TypeScript-based dashboard for mineral resource information and reporting.
- Built responsive interfaces and data visualisation components.
- Worked with interactive mapping, dashboard analytics and application navigation.
- Designed the frontend architecture for integration with backend services.

FunMeal, *Food Ordering Application*
- Developed a React-based food ordering interface using Vite.
- Built an Express.js backend with meal and order API endpoints.
- Implemented frontend-to-backend communication.
- Worked on meal discovery, ordering workflows and application functionality.

Unity Connect Block Industry Website , *Developed a fully responsive and accessible frontend interface for Unity Connect Block Industry Website.*

- Developed a responsive business website using React.
- Structured reusable components and business information sections.
- Focused on accessibility, user experience and mobile responsiveness.

CEPROAM , *Contributed to the development of a property and estate management web application designed to streamline property-related operations and administrative processes.*

- Developed and implemented responsive user interfaces for property and estate management workflows.
- Built reusable components to support maintainable and scalable application development.
- Worked on application features focused on organising and managing property-related information.
- Collaborated within a development workflow to improve application usability, functionality and overall user experience.
